TPPA Dialogue session with YB Dato' Sri Mustapa Mohamed

YB Dato' Sri Mustapa Mohamed, the Minister of the Ministry of International Trade and Industry (MITI) held a dialogue on Trans-Pacific Partnership Agreement (TPPA) on 1 December 2015, at the new MITI building. The TPPA dialogue attracted more than 1,500 participants including non-governmental organisations.

The Minister provided a comprehensive and the background and content of the agreement, including independent views/cost-benefit analysis of the TPPA by PricewaterhouseCoopers and the Institute of Strategic and International Studies (ISIS). These studies have already been made public since the Dialogue and are accessible at MITI website.

Besides Malaysia, other countries involved in TPPA negotiations are Australia, Brunei, Canada, Chile, Japan, Mexico, New Zealand, Peru, Singapore, United States and Vietnam.

We welcome comments and feedback:

THE STEEL NOTICE BOARD

2015 ASEAN Iron and Steel Sustainability Forum (30 November – 2 December 2015)

On 30 November – 2 December 2015, South East Asia Iron and Steel Institute (SEAISI) and MISIF organized the 2015 ASEAN Iron and Steel Sustainability Forum, which attracted participants from 74 Ministries/agencies including iron and steel companies in the ASEAN region. Every year this forum provides the opportunity for the iron and steel industry players to mingle and network with each other as well as in finding some synergies. This Forum also provides the avenue for the industry players to keep abreast with the latest developments/updates/outlook at the national, regional and global levels.

This year, the Forum focused on the construction industry where they discussed and shared experiences on the latest developments in the building construction system, designs and technology related to steel applications. The Forum also delved into technologies and best practices in environmental and safety management.

The 2-day Forum saw 8 sessions with more than 27 speakers covering a whole range of topics:

- **Session 1:** Steel market developments;
- **Session 2:** Construction Management & Sustainability;
- **Session 3:** Smart systems for steel construction;
- **Session 4:** Steel materials & innovative products development;
- **Session 5:** Waste management;
- **Session 6:** Energy saving;
- **Session 7:** Emission Control;
- **Session 8:** Operation management for environmental Improvement.

The organizers also arranged for two site visits on 2 December 2015, the Construction Research Institute of Malaysia (CREAM), the R&D arm of the Construction Industry Development Board (CIDB); and Southern Steel Mesh Sdn Bhd.
