THE STEEL NOTICE BOARD

Malaysia – Japan Public and Private Collaborative Workshop (ASEAN Japan Steel Initiative), 6 August 2015

The ASEAN Japan Steel Initiative is an effort by the Ministry of Economics Trade & Industry (METI) of Japan to promote energy efficient steel making technology to ASEAN countries. The Malaysia – Japan Public Collaborative was held 6 August 2015 at the Renaissance Hotel to brief government ministries, the respective agencies and industry players the benefits of energy efficient steel making technology that is environmentally friendly. The technology presented by the Japanese delegates under the NEDO initiative is an introduction to Semi-Self Regenerative Energy Burner for steel making mills.

Malaysia Steel Institute (MSI) CEO Mr. Tony Lee was invited to give the closing remarks for the Workshop. He was accompanied by the Senior Officer for Research and Development, Mr. Yan Sze Hon.
