On behalf of BOD, management and staff of MSI, we would like to wish all our Muslim friends in Malaysia:

*Selamat Hari Raya  
Aidiladha*

## Pre-Lab Session – Iron & Steel Lab

Malaysia Steel Institute was given the mandate to facilitate the conduct of the Iron & Steel Lab led by PEMANDU with the industry players' participation to identify critical issues affecting the Iron & Steel industry and to chart the path for the sustainability of the Malaysian Iron & Steel industry in the mid to long term.

The Lab brings together all stakeholders both public and private sector in one room to 'buy in' and come up with problem statement and collectively establish and agree on a roadmap with concrete action plans that includes the entire value chain (upstream, midstream and downstream). This will also include gearing and meeting the iron & steel requirements of the catalytic sectors as highlighted in the 11th Malaysia Plan, increasing competitiveness, meeting international standards, more export orientated and going global.

# THE STEEL NOTICE BOARD

A Pre-Lab session was held among key stakeholders, as a precursor to the actual Lab sessions to bring everyone to be on the same page - understanding of what the Lab is all about, how it will be conducted and full commitment required of the participants for the successful outcomes of the Lab. At the end of the Lab all stakeholders with sign up to implement the action plans as collectively agreed to. The Pre-Lab session held on 25 August 2015 at MITI was facilitated by PEMANDU led by Mr Damien See with participation from the industry players including MISIF, MSA, SWAM, MSMDA, FMM, MITI and related government agencies.

## 2<sup>nd</sup> Iron & Steel Industry Occupational Analysis (OA) Workshop

Following the completion of the 1st Iron & Steel Industry Occupational Analysis (OA) Workshop held on the 9 – 10 July 2015 at Malaysian Iron & Steel Industry Federation (MISIF), Malaysia Steel Institute successfully conducted the 2nd workshop on 11 September 2015. A panel of industry experts, representing the up and mid-stream players, including Perwaja Steel Sdn Bhd, Ann Joo Steel Bhd, Amsteel Mills Sdn. Bhd., Malaysia Steel Works Bhd., Top Steel Services Sdn Bhd and Hoto Stainless Steel Sdn Bhd and Kentzu Steel Sdn Bhd participated in the workshop.

The second OA Workshop discussed and deliberated on the Occupational Structure details, Occupational Definitions, Critical Jobs Details and other segments in completing the new Occupational Area Analysis for the Iron & Steel Industry. A final report will be presented to JPK for approval and will form the basis to develop the required National Occupational Skill Standards (NOSS) for the critical occupations.
